Message from the Guest Editors

The relationships between impact on ecosystems and their service supply potential are critical to sustainable development. Since biodiversity is linked to ecosystem processes and the resilience of ecosystems to environmental change, alterations can have profound consequences for the capacity of ecosystems to supply ecosystem services. It is therefore of paramount importance to protect and conserve the health and operation of aquatic ecosystems.

This Special Issue will focus on advances and possible mitigation measures adopted in order to alleviate anthropogenic pressure in rural and aquatic environments and their resources, moving one step closer to ecosystem sustainability. Potential topics of this Special Issue may include but are not limited to good governance, environmental and/or ecological integrity, marine and rural habitat structure and functioning, environment-culture interactions and practices focused on sustainability, economic resilience and social well-being.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many other databases.

Journal Rank: [JCR - Q2 \(Environmental Sciences\)](#) / [CiteScore - Q1 \(Geography, Planning and Development\)](#)
